

Boil Water Notice Rescinded

1-25-26

On 1-21-26 **Central Texas WSC a wholesale supplier of Bell Milam Falls WSC had a major water line struck causing a major water leak and loss of pressure for direct pressure customers along Pecan School Rd, Round Hall Rd, FM2268 and customers on Hwy 95.** The Texas Commission on Environmental Quality required the Bell Milam Falls WSC public water system, PWS#0140007, to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of 10-21-25

If you have questions concerning this matter, you may contact James Marek at 254-697-6014

If a customer wishes to reach out to TCEQ, they may call 512-239-4691
